Week 1 Assignment Written Report

Draws three conclusions from the data (10 points)

1. There were more successful outcomes with the Theater category compared to all other categories.
2. There were more successful outcomes with the Plays sub-category compared to all other sub-categories.
3. After July, there was a big drop in Successful and Failed outcomes.

States limitations of the dataset and suggestions for additional tables of graph (10 points)

The limitation with the data is that we are only looked at a sampled of population, which in this case it was a period of time. If we had more historical data, we might be able to find more valuable insights.
